

# BSJ-H

BSJ-H

## B

BSJ-H is a high-precision, high-speed, and high-accuracy machine. It is designed for the production of high-precision parts. The machine has a maximum processing speed of 3000 pieces per hour. It is suitable for the production of various types of parts, including small and medium-sized parts. The machine is easy to operate and maintain. It is a reliable and efficient machine for the production of high-precision parts.
