

JYB-X7 Ultra-high definition zoom photo cradle head

Brief Introduction:

The JYB-X7 HD camera cradle head is an ultra-high definition zoom photo cradle head. The control system is integrated into the Yuntai, and the integrated cradle head camera is connected to the quick disassembly part of the bottom of the aircraft. Users can use the ground station control Yuntai and camera independently developed by MMC.

Technical Parameter:

Size	186×215×222mm
Weight	1.5kg
Working temperature	-10°C~50°C
Save the temperature	-20°C~60°C
Static control accuracy	±0.01°
Dynamic control accuracy	±0.05°
Way to install	detachable
Range of structural rotation pitch	-130°~50°; heading: ± 175°; roll: ± 75°
Cloud head control range pitch	-100°~45°; heading: -170°~170°
Sensor	CMOS, 35mm full frame
Video resolution	1080p, 1080i
Camera lens	SEL2870
Storage Card	With SD / SDHC / SDXC support, the camera is compatible with UHS-I, and has up to 64G capacity support
Work pattern	Take photos, video
Pixel / resolution	42.4 megapixels
Camera anti-shake	Electronic anti-shake
