

Ultra Bright Blade Tape Measuring

PG_UB

6 SKUS, 4 LENGTHS

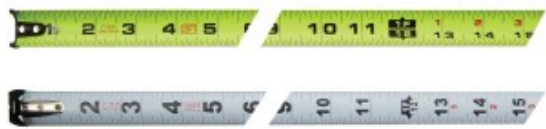

Our Ultra Bright class of short tape measures. They are easy to read in low light environments, and stay visually cleaner than black and white blades. Great for in-shadow measurements, for instance, those in cabinets and in corners. Also helpful in the meager light of dawn and of dusk. We’ve increased the number size to make them easier to read in any condition. We also have added a vertical reading feet and inches scale on the reverse side for vertical measurements.

We placed these high-contrast, large-numbered, blades in a solid-ABS housing that is further protected by rubber casing.

- Ultra Bright blades are easier to read in low light
- Vertical scale on the reverse makes it easy to measure vertical surfaces more easily
- Highly visible covering makes it easy to find

PRODUCT FEATURES & BENEFITS

Blade Special	Ultra Bright Blade coloring with larger numbers	You can read the blade more easily in low light applications
Blade Return	Impact Absorbing Bumper	Helps protect the end hook on tape return.
Lock	Slide	
Case	High-Impact black ABS, high-visibility rubber grip	Quality case, easy to spot if dropped
Blade	Nylon-coated steel	
Impact Durability	High-visibility rubber grip	Holds up to accidental drops
