

# YFX-14 Multi-rotor Spraying Drones

---

Original V-shaped medicine box, planting fertilizer bait medicine integrated machine

## Product Parameter

---

Appearance dimensions: 1385 \* 1385 \* 588MM

Medicine cabinet capacity: 14L

Operation efficiency: 80-100 mu / H

Operation spray amplitude: 4-6M

Battery life: 10-20MIN

Battery capacity: 14,000 mAh 44.4V

Operation mode: fully autonomous / dynamic AB point / manual, cloud data platform management, Android phone APP operation

**The application scenario is wide**

---

apply fertilizer

sow

Fish feeding

grass seeds

Snowmelt

pesticides

**Multi-scene application replacement is convenient**

**Particle dissemination  
system**

**Powder spraying  
system  
Fluid spraying system**

## **Double imported V-type medicine cabinet**

**Diameter is 113mm wide**

Anti-shock, reduce the loss of inertial power, and a more stable body

Particle box size particles fall autonomously to avoid packing

Liquid and solid state share the medicine cabinet to improve the operation efficiency

**Flight prevention operation:**
