

HI TARGET V90 PLUS Geophysical RTK GPS Surveying equipment

V90 PLUS GNSS RTK GPS Main Features

- 1) Advanced GNSS engine
- 2) Supports GPS, GLONASS, BDS, GALILEO
- 3) Integrating tilt sensor and electronic bubble
- 4) NFC and WiFi Features

Details of the benefits of gnss rtk v90 plus:

- 1) Multiconstellation Tracking
- 1) 555 Tracking Channel (Optional)
- 2) NGS approved full-wave GNSS RTK antenna
- 3) Supports GPS GLONASS GALILEO BDS SBAS
- 4) Supports a wide range of satellite signals
- 5) Large reception area designed to reduce multipathing
- 6) The air dielectric is light and stable

Smart Applications

- 1) Slope surveying is possible with a maximum tilt angle of 30 degrees
- 2) Supports electronic bubbles
- 3) Intelligent voice assistants guide you through site work. Audio is DIYable.
- 4) Simultaneous recording of standard Rinex data and HI-TARGET raw data
