

## PJA8 High Precision Android Handheld Collector

### Professional data collection software TMapper

- ★ It features professional Android handheld TMapper-GPS software, simple operations, navigation points, routes, navigation tracks, area collection, editing, navigation and other features.
- ★ A variety of area measurement methods, easy, efficient, and accurate area calculation. It combines coordinate data and photos, enabling photo navigation.
- ★ Online Offline Map Work Mode supports Google Remote Sensing Image Map, Baidu Electronic Map, Contour Map, and Online Map Offline Package can also be used.
- ★ Supports users to customize the map. shp, mif, and other formats. Multiple GIS data output formats that meet all data processing requirements.
- ★ Supports CGCS2000 coordinates, can display WGS84, Beijing 54, Xi'an 80 and custom coordinates and other coordinate systems simultaneously, supporting double coordinate display.
- ★ The software version supports the user's online self-service update service. It supports bulk import of navigation point information.

### **Data Collector Survey: Industrial 3 prevention, strong, thin and durable.**

Industrial grade 3 protection standard, IP68 protection level, waterproof, dustproof, shockproof, high damage resistance and high durability, easy to deal with harsh extreme environments, thin and lightweight body design, easy to carry.

#### **sensor**

Distance sensor, light sensor, electronic compass (geomagnetic), gyroscope, acceleration sensor

Operating System: Android 7.0

Processor: Quad-core 1.1GHz processor

#### **GNSS Features**

Receiver: GPS Hokuto High Precision Chip, SBAS Support

Positioning accuracy: One-point positioning 2-5m (CEP) SBAS 1-3m (CEP)

Data Update: 1Hz

#### **Screen features**

Display: 5.0-inch HD display with adjustable backlight for clear reading in the sun

Resolution: 1280 \* 720 pixels

Dimensions: 159 \* 79 \* 16mm

**camera**

The rear camera is 8 megapixels, and the front camera is 2 megapixels

**data communication**

Data interface: Mini USB

Communication: Built-in Bluetooth, WIFI, (supports call function), FM, NFC, BT

Audio transmission: China Mobile CSFB, China Unicom CSFB

Language: Chinese and English

**Save, save**

2GB RAM 16GB of internal storage, support for TF card expansion, up to 128GB

**Power characteristics**

4500mAh built-in lithium polymer battery, non-removable.

Weight: 263g (including battery)

Operating Time: The battery operates for more than 20 hours under normal operating conditions.

Operating temperature: -20°C to 60°C

Storage temperature: -40°C to 70°C

**Standard fitting**

Host, Battery 1, Data Cable, Charger, Certificate, Warranty, Tmapper-GPS Software
